

Complexity Analysis

Time Complexity

$$O(m \times n)$$

$m = \text{length of } s$

$n = \text{length of } t$

nested loops each running $O(m)$ & $O(n)$ time $\rightarrow \underline{\underline{O(m \times n)}}$

Space Complexity

2-D dp table $\rightarrow \underline{\underline{O(m \times n)}}$ $\rightarrow$ full table.
